Principle: mgr Dorota Żurawska-Nowak

# Building and surrounding

Our institution is located in two-floored building which used to be the property of Polish army (it's made of red bricks). It's located quite close to the city centre.

- Besides the classrooms there is also an assembly room, a canteen and an adapted attic.
- A colourful playground in front of the building
  - A cloakroom in the basement

# classrooms

- Colourful and friendly
- With space to store basic teaching aids and books (*students do not take them home*)
- Presenting students achievements- individual and group projects

# Our school in numbers

# OUR TEACHERS

Our teachers are dedicated, motivated and well-qualified. They are passionate people full of positive energy, promoting respect, good manners and equality.

We appreciate their engagement and permanent motivation for personal and professional development.

We mainly rely on the teachers who attract pupils and their parents by putting into practice innovative methods and creating their own programs. The main responsibility of our highly qualified teachers is to assist a student in exploring the world and to motivate a child to achieve success.

# CLUBS

Besides following the obligatory national curriculum, our school provides the students with various clubs to develop their passions and interests.

Among other things we offer extra classes with English native speaker, chess, art workshops, dance or sports clubs.

# OUR STUDENTS

School is a wide area of new exciting experiences both for children and their parents.

Every beginning of new school year is thrilling, exciting and full of expectations.

The first and one of the most memorable moments in every pupil's life is certainly the celebration of becoming a student of „Morska Kraina”.

We do our best to make this day a fantastic beginning of school adventure and gifts obtained while the celebration are to recall about a new stage in students' life.

# OUR STUDENTS' SUCCESSES

They are our biggest satisfaction and joy!

The students of „Morska Kraina” are prizewinners of many competitions of high levels in our country as well as international ones, like KANGUR or FOX.

They take part in various tournaments including sports, singing, reciting, drawing, writing and those which check particular knowledge (ex.history, languages, geography).

Every year, for their achievements, our students are awarded by the president of Kołobrzeg.

We do remember that their success is the result of priceless ability to reconcile hard work with passion and education every single day.

So... we do not have choice but we have to be proud of them, and of course we ARE!

We, as a school itself, also support our students - every year our Foundation Integration of Educational Environments „Morska Kraina” awards the most hardworking talented ones.

It can occur thanks to support of every single benefactor.

Giving a scholarship not only do we take into account students’ talents and hard work but we also hold to traditional values of good manners, pride in appearance, respect, responsibility and the development of self-discipline.

# OUR EVERYDAY LIFE...

Studying in „Morska Kraina” does not only mean a classroom!

The main factor is certainly outdoor education, including excursions, visits to the theatre or cinema, lessons in museums, exploring the neighbourhood or meeting with interesting people.

Throughout the year all children go on a variety of trips which enhance the curriculum.

These can be whole school trips or class specific trips.

We follow the most efficient methods with plenty of exploration, observation and experience.

# ...SCHOOL TRIPS

# PARTICIPATING IN INTERNATIONAL PROJECTS

- ▶ Our institution eagerly collaborates with other schools and takes part in innovative educational programs or school projects.
- ▶ Our pupils take part in school exchanges, international language projects, innovative educational platforms, as well as visit different countries and institutions abroad. Everything just to broaden their minds.

# LEARNING WITH FUN AND JOY

We strongly believe that the most appropriate way of learning and acquiring knowledge or skills occurs while playing and having fun.

## Education combined with fun?

In „Morska Kraina” we are trying to put into practice as many such projects as possible!

Not mention language or historical dramas, competitions, English and German songs, dancing performances, games... All in all, every day brings new ideas for all of us!

# SUPPORTING VOLUNTARY

- ▶ Our students are eager to support voluntary events in Kołobrzeg and our country.
- ▶ We believe that the amount of goodness and gold heart given to the other person returns with doubled strength.
- ▶ Respect to the others and disinterested help are the most priceless values we are trying to pass on every day.
- ▶ Help brings joy - just have a look ☺

# Meetings with experts

„Morska Kraina” is often visited by many interesting and extraordinary guests.

We invite experts of education, artists, doctors, policemen, firemen and many other people of different professions.

Every single meeting is held to develop imagination and broaden the students knowledge by learning about the secrets of presented jobs and special tools or equipment.

Nothing works as well and impresses kids as well as possibility to confront their life experience with real and highly qualified people's example.

# Meeting and cooperating with experts of education - prof. E. Gruszczyk-Kolczyńska, mgr E. Zielińska

- ▶ „Morska Kraina” initiates and puts into practice many programs. One of them is the program of profesor Edyta Gruszczyk-Kolczyńska, the icon of contemporary pedagogy and teaching mathematics in early childhood.

The main effect of collaboration with prof. Gruszczuk -Kolczyńska became numerous methodological workshops for the whole staff carried out by her co-worker and co-author of significant studies - mgr Ewa Zielińska.

# Our successes

Permanent development of our institution is the first goal for us. We eagerly take part in competitions and innovative programs which help us discover various ways of education and constantly widen our offer.

# CELEBRATING GALAS

- ▶ Talents should not be hidden!

Every year our institution organises solemn galas on the stage of Regional Centre of Culture in Kołobrzeg. During these events our students present their talents and achievements, which are the effects of their yearlong work.

Aplause, parents' emotions, joy and amazing pictures - every year we enlarge our collection of incredible memoirs!

# What will you find in our school?

- ▶ Family, warm atmosphere
- ▶ Dedicated, well-qualified and friendly staff
- ▶ Innovative programs, methods and forms of education
- ▶ Constant development and achieving goals
- ▶ Learning by games, observation, experience, experiments and fascinating projects
- ▶ Unique opportunity to get used to public performance for every single student from the very beginning of education
- ▶ Cooperation: pupil-school-home
- ▶ Interesting trips and meetings with experts
- ▶ Plenty of outdoor activities

- ▶ Scholarships for the best
- ▶ Following the main values: respect, friendship, good manners, support and trust
- ▶ Teaching by encouraging and creative attitude
- ▶ Extra classes and clubs as a chance to develop passions and interests
- ▶ Support for bilingual, returning from abroad kids with poor Polish language in use

...and loads of other amazing issues! 😊
